Summary Portfolio | Interactive resume

Full-Stack Developer with 2 years of experience within an international company in Canada, working on a B2B SaaS platform (partner integrations, REST APIs, and Python/AI automation). Comfortable on both the frontend (React, TypeScript, Next.js) and backend (Node.js, PostgreSQL). Tech-business hybrid profile, leveraging a previous background in real estate.

Technical Skills

- **Languages** : JavaScript ES6+, TypeScript, Python, Ruby
- **Frontend** : React, Next.js, Tailwind CSS, Vue.js, HTML5, CSS3
- **Backend** : Node.js, API REST, PostgreSQL, MySQL, MongoDB
- **Tools:** GitHub, Bitbucket, Jira, Splunk, AWS, CI/CD
- **Testing** : Vitest, Jest (unit and functional tests)
- **Methods & Languages :** Kanban, Agile | French (native), English (C1)

Work Experience

Web Integration Developer • Plusgrade (Montréal, Canada)

March 2024 - January 2026 (References available upon request)

- **Integrated and onboarded** partners (React/TypeScript, Groovy, JSON) from ticket to production in an Agile/Kanban cycle - *362 tickets resolved out of 1650 in 2025 (22% of the workload within a team of 7 developers)*
- **Maintained** the PostgreSQL database: SQL queries and daily code reviews
- **Monitored production** (Splunk, AWS Athena Logs) and resolved incidents in collaboration with Product and QA teams
- **Automated workflows** using Python scripts, Google Apps Script (JavaScript), and AI tools (Amazon Q, Gemini): developed an automatic SQL rollback script *(saving 15 minutes per ticket)*
- **Built internal tools** for the team: automated partner data validation connected to an API *(reduced processing time by 50% and eliminated critical production bugs)*

Full-Stack Developer • Freelance

January 2024 - February 2024

- OxCERT: **Fully developed** the website using Next.js and Tailwind CSS, and integrated the Notion API as a headless CMS for dynamic content management
- L'Immobilière Franco-Suisse: **Designed** an internal Ruby on Rails application to automate client follow-ups using Cron jobs and Action Mailer

Business Development Manager • L'Immobilière Franco-Suisse (Lyon)

September 2021 - December 2023

- **Led** business development, managed client relationships, and deployed tools to optimize operations

Personal Projects

- **Kyte - Node.js, TypeScript & Next.js** | GitHub | Website : Seed phrase encryption application for a crypto wallet
- **Remed - React Native & Supabase** | GitHub : Medical mobile app - React Native & Supabase backend
- **Pixy - Javascript & Ruby on Rails** | GitHub : Chrome extension & Ruby on Rails backend - Le Wagon team project

Education

Le Wagon • Full-Stack Web Development Bootcamp (Bachelor's level)

2023 - Full-stack : Ruby on Rails, JavaScript, SQL, HTML/CSS, Git/GitHub

IMSI • Master's Degree in Real Estate Management

2020-2022
